Spine MedEd

SKULL TO SACRUM

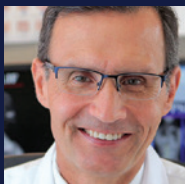

October 10-11, 2019
New York City, New York

The target audience for this program is orthopaedic surgeons or neurosurgeons who specialize in the treatment of adult deformity spinal correction.

Medtronic
Further, Together

Skull to Sacrum is a Medical Education course focusing on the latest technology and techniques for treating complex spinal pathologies. You will connect with world-renowned thought leaders that will be at the center of the program teaching through case presentations, panel discussions, and group breakouts. The program will highlight evidence-based topics such as preoperative planning while discussing the future of the optimization process with predictive analytics and how to incorporate the use of big data into your practice. You will leave inspired to adopt the latest technological advancements, drive better patient outcomes, and shape the future of spine surgery.
